Hearing on Climate Change at Luxembourg

The Commission for Sustainable Development holds a hearing on Climate Change the 21th October 2009. Only organisations (not private persons) from Luxembourg are allowed to give their opinion in a public hearing; these organisations are for instance Greenpeace, Mouvement Ecologique, Klimabündnis etc.... So expect to hear the litany. I asked to be allowed to send as a scientist my private position to the commission, and this has been gracefully accepted by the president, former Minister Fernand Boden (and currently a MOP) . The text in French of my position is [here](#).

Marcel Severijnen, former head of the Environmental Monitoring Department of the Province of Limburg, NL, sent me these [remarks](#). I agree 100%, and thank M.S. for his comments and supplementary information.
