Prof. Ulrike Ackermann from the university of Heidelberg has written an [extraordinary lucid and clear article](#) in the Neue Zuericher Zeitung. This should be (mandatory ?) reading for every citizen! See also Pierre Gosselin's comment and partial translation [here](#).

I am really excited by this article, which resumes in a magnificent way the dangers of a green movement, which from initial well-meaning and sensible care for the environment seems to slip into religious fervor and dictatorial fascination.
